

# UCL-SG-RETROFIT HOUSING KITS

The UCL/SG Series Retrofit Housing Kit provides an innovative solution to the problems traditionally associated with retail petroleum lighting retrofits. The new powder coated finish, all-aluminum construction, completely universal box (23" square or less) covers the existing fixture for an updated look without the need for field measuring or otherwise determining the manufacturer or type of existing fixture. The installer simply mounts the universal frame to the canopy and existing housing, then lifts and shifts the new housing into place over the old, providing a clean, finished look and appearance of a new fixture.

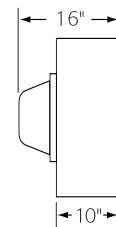

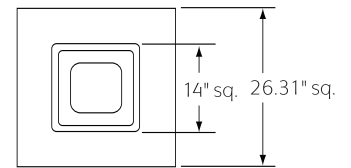

## Fixture Specifications

### FEATURES

- Completely universal for fixtures 23" square or less. No need to measure or otherwise identify existing fixture
- Eliminates ordering errors due to incorrect field measurements
- Covers existing fixture - eliminates the need to paint existing box
- Makes old, tired fixtures look new
- All-aluminum construction
- Powder coat finish (white standard)
- Includes lamp
- May be ordered with new ballast or no ballast (for use with existing ballast)
- Available with UCL glass (UCO1 standard; UCO2 or UCO3 available) or Stargate glass

### DIMENSIONS

### FIXTURE ORDERING INFORMATION

Catalog Number	Wattage	Voltage	Power Factor
<b>UCL-320P-HSG-KIT</b>	320 pulse start metal halide	120/208/240/277 (MT)	HPF
<b>UCL-NB-HSG-KIT</b>	No ballast		

- Specify voltage
- Standard optic = UCO1 glass. Consult factory for UCO2, UCO3 or SG Glass
- Fixtures have standard white finish. Consult factory for optional finishes
